TECHNICAL SKILLS

- Angular | RxJs | NgRx | Redux
- Angular material
- JavaScript | TypeScript
- HTML | CSS | SCSS
- Gulp | Webpack
- Node.JS | Nest.JS
- Java | Spring Boot
- C# | ASP.NET
- SQL | MySql | PostgreSQL
- TypeORM
- Figma
- Karma | Jasmine
- Scully | Strapi
- Bootstrap | JQuery | Tailwind
- Git | GitHub | BitBucket | Azure
- CI/CD

LANGUAGES

- English
- Spanish
- Russian
- Armenian

EXPERIENCE

Angular Frontend Developer 2024 – present

Sicomoro / IACPOS

Worked on the development of ticket-booking solutions for museums, theaters and cultural institutions. Built and maintained interfaces using Angular 16, NgRx, Angular Material and Bootstrap. Integrated frontend logic with backend APIs to manage reservations. Participated in CI/CD processes using Azure Pipelines, ensuring stable deployments and continuous delivery. Focused on performance optimization, state management and creating reliable user flows for high-traffic booking platforms.

Front-End Developer 2022 – 2024

G-Core Labs S.A., Remote

Developed a cloud products calculator for the company website using Angular (v15, v16), RxJS, Strapi, Scully, Nest.js with TypeORM, and PostgreSQL. Implemented complex logic and multiple user interactions, generating data from JSON prices for seamless frontend integration.

EDUCATION

The Rolling Scopes School 2021 – 2022

Software Engineer
